## 5,500 STILL MISSING

PERSHING REPORTS CONTINUED EFFORTS TO ACCOUNT FOR ALL

## MANY BODIES ARE FOUND

**Identification of Re-interred Bodies Is Reason for Continued Casualty Lists.**

Washington, March 28.—General Pershing reported to the war department yesterday that there are still 5,500 officers and men of the expeditionary forces listed as missing. This total compares with the British official figures of 161,800 missing and the French 290,000.

All of the 5,500 names have been reported as "missing" in casualty lists already published, the report said. Reinterments of bodies from isolated graves in the centralized identification in a number of cases and for this reason the records of the Grave Registration service are being carefully studied

Re-examination of grave registration reports and also of hospital records referred to by General Pershing was said by officials at the war department to explain the "killed in action," and "wounded in action" casualties still appearing in the daily casualty lists sent out by the department.

The British war office, General Pershing's report said, had adopted the policy of considering twenty-six weeks in the case of an officer and thirty weeks for an enlisted man as the length of time after the man had been recorded as missing before death is presumed. In the French army, he said, no definite period had been fixed.

No accurate estimate of unreported deaths can be given, said General ePrshing's report. There are, however, approximately 5,500 missing to be accounted for, all of whom have been reported to Washington as missing Re-interment of bodies removed from isolated graves to centralized cemeteries is furnishing additional identification of deaths hitherto reported as missing.

Access to sites of prison camps in Germany and to territory formerly within enemey lines is leading to discovery of many American graves and identification of casualties previously reported as missing.

Each company or other unit of the American Expeditionary Forces have heretofore been furnished a complete list of officers and men carried as missing up to Feb. 1, it was said. All units are required to display such list in places accessible to members of command for the purpose of securing casualty information from every possible source.

Consideration should be given to the fact that method of warfare as well as the extent of terrain fought over, lent exceptional difficulties to discovery and burial of dead, it was pointed out. Burial parties frequently completed their mission under heavy fire, and it often could only be done under cover of darkness, thus making identification difficult and often impossible.

As rapidly as identification can be completed from information originally filed or subsequently obtained from every possible source, correct present status of each case is being reported by cable, it was said.

Miss Marion Huff, a government teacher in the Phillipines Islands, will make an address at the Wilcox Methodist Sunday school Sunday morning at ten o'clock. Miss Huff formerly taught in the Maryville and Burlington Junction schools, and is well known through this vicinity.

## NAME FAIR DATES AUG. 4-9

**Fair Association Directors Decide the Event Shall Be Earlier—Will Effect Reorganization.**

The Nodaway County fair this year will be held August 4 to 9. These dates were decided on today at a meeting of officials and directors of the association. The Nodaway county fair will follow the fair at Bedford, Iowa, and is almost a month earlier than the dates of former years.

Wm. Hanecy, one of the out of town stockholders of the fair association, is here today and with other stockholders and directors a reorganization of the association will in all probability be effected.

Following the transfer of the fair grounds property last year to the present owners, the deal being completed but two months before time for the fair, a working organization was hurriedly effected in order that the event might be held as had been scheduled. A reorganization is deemed desirable in order that an early start may be had in getting things ready and booking attractions for this years fair.

## SET CLOCKS AHEAD MAR. 30

**Beginning Next Sunday Morning There Will Be Another 6 Months of Daylight Saving.**

Under the federal daylight saving law, the time will be advanced one hour at 2 o'clock Sunday morning, March 30. Some confusion is expected to result, as there will be a number in each community who will neglect to change their timepieces and until their attention is called to the fact by some resulatant mishap, they will be trailing along an hour behind the rest of the world.

When the law first went into effect last spring, many rebelled at the new custom and clung to the old time—until they got tired of always being mixed up in everything in which the time of day was involved.

A determined effort was made by certain interests, mainly the agriculturists, in the closing days of congress to bring about a repeal of the daylight saving law, but congress was so busy with so many other things that no action was taken on the matter.

## $20,000 TO REPAIR NORMAL

**Legislature Makes Appropriation to Replace Loss Due to Recent Storm—Work is in Progress.**

The legislature this week at Jefferson City made a special appropriation of $20,000 for the purpose of repairing the State Normal school building which was damaged recently in the storm. President Ira Richardson, who took the matter up with the legislature, returned from Jefferson City last night.

Work is already in progress in repairing the damage.

**Administrator Appointed.**

In the estate of William T. Nelson of Guilford, whose death occurred February 20, 1919, his widow, Martha A. Nelson, was appointed administratrix by Judge Robertson in probate court today.

## APRIL COURT TERM

WILL BEGIN MONDAY, APRIL 7 138 CASES ON DOCKET

## "PAINTERS" TO TRIAL

**Case of Maryville Business Men Charged with Felonious Assault Will Be Heard—69 Trial Cases.**

Judge John M. Dawson of the circuit will find a well filled docket when the April term begins Monday, April 7, morning with a total of one hundred and thirty-eight cases to dispose of. The criminal docket will furnish several interesting cases.

The case of Clint Hewitt, charged with the theft of hogs, which resulted in a mistrial at the last term of court will hold a large amount of interest for residents of the Pickering neighborhood.

Dr. A. D. Barnett, charged with assault with intent to kill, Charley Gibb, charged with perjury, William J. Wagner charged with a statutory offense, several persons charged with violation of the local option law and gaming, and assault and battery cases make up a large part of the criminal docket.

On the parole docket twenty-five persons are called to appear before the court. The trial docket has sixty-nine cases down for hearing, while the equity docket has a total of twenty-seven cases to be heard.

## CANDIDATES IN A CONTEST

**Well Known Burlington Junction Men Running for Justice of the Peace Advertise Each Other.**

A feature of the election at Burlington Junction Tuesday was the friendly rivalry between Charles I Hann, cashier of the First National Bank, and Robert N. Barber, cashier of the Northwestern bank of that town, candidates through no fault of their own for Justice of the peace on opposing tickets. Barber wanted to see Hann elected, so a placard was posted supposedly coming from Hann promising the people all sorts of justice should they elect him. Then the Hann forces secured a bell and a youth and gave the youth the bell and a sign calling on the people not to overlook the unusually qualifications of Mr. Barber for the position of justice of the peace. The boy, the bell and the placard were marched up and down the streets, and, as advertising always pays, Barber's name led all the rest in number of votes received.

## ORDER TO TURN CLOCKS UP

**Railroads and Postoffices Instructed to Observe Daylight Saving Law. Hour of Church Services to Change.**

Sunday morning is the time to turn up the clocks an hour in order to comply with the daylight saving war measure. Agent W. E. Goforth of the Burlington and E. L. Ferritor of the Wabash have received orders to turn up their clocks an hour. Similar orders have been received at the postoffice here.

Nearly all of the stores and banks will observe the law.

All of the churches of the city will change the hour of their evening services next Sunday because of the new time. Young People's societies will commence their meetings at 7 p. m. and the evening preaching services will commence at 8 p. m.

**REVIVAL HAS GOOD RESULT.**

**Pickering Church Received 42 New Members—Service at Myrtle Tree Sunday.**

The Rev. O. S. Dayhoff, pastor of the Methodist church at Pickering, will preach at the Myrtle Tree church Sunday morning and at the Pickering church Sunday night. Preceding the Sunday night church service, the Epworth League will be reorganized and plans made for the carrying on of their work.

Last Sunday the Rev. J. R. Harper of St. Joseph, preached at the Pickering church at both the morning and evening hours. A baptismal service took place after the church service in the morning and the pastor, Rev. Dayhoff, baptised twenty-eight and received fourteen others into membership, making forty-two new members as the result of a four weeks' revival service which ended that day. The Pickering church is a very wide-awake organization and has been having great success in all its work.

## BURNED $1,000 SCHOOL BOND

**Board of Education Reduces Bonded Indebtedness—Saving to Taxpayers of Interest Charges.**

In pursuance to an order of the Board of Education at the last meeting ordering the purchase of Bond No. 66 for $1,000 due July 20, 1925, the bond was purchased by the treasurer and was today burned in the presence of L. C. Cook, Dr. Jesse Miller, E. E. Williams, James B. Robinson and George Pat Wright

This bond was one of the original issue of $75,000.00 issued in July, 1908, due July 1928. The retirement of this bond leaves a balance yet due on the original bonded indebtedness of the district of $10,000.00. Thus it will be seen that the board has acted wisely in paying off the bond before due. While the bonds are not due until 1928 it has been the policy of the board to purchase and retire bonds as rapidly as funds would permit, thus saving to the tax payers large sums in interest charges. It is gratifying to note the small bond indebtedness of the district, which is now only $10,000.00.

## ADDS $737,822 TO COUNTY

**State Tax Commission Hikes Assessor's Returns for 1919—Farm Land at $85.50 per Acre.**

The state tax commission at Jefferson City has added $737,822 to the assessor's returns for Nodaway county for this year's taxes, making a total assessment of $68,610,284. This amount was recommended to the state board of equalization which will meet soon. Farm land values in Nodaway county were placed by the commission at $85.50 an acre, or total of $47,261,594.

In its letter which accompanies the report, the tax commission says that the assessment of 1918 is an improvement over that of the preceding year, "assessing officers generally having shown a greater respect for their official oaths, and a more intimate knowledge of the laws they administer. The assessors of but few counties have adhered to the old system of assessing property on a variety of fractional basis. Nearly all assessors have co-operated with the commission.

## MORE PAY FOR COUNTY SUPT'S

**Senate Passes Bill Providing for 50 Per Cent Increase—Ready for Governor's Signature.**

Jefferson City, March 28.—The House Wednesday passed the Senate bill providing for an increase of 50 per cent in the salaries of county superintendents with an emergency. The vote was 115 to 9. The measure will now go to Gov. Gardner and when signed will increase the salaries of the superintendents, who will be elected at the coming April election.

The bill provides a schedule of salaries from $1,050 to $2,250, according to the population of the county. The State will pay $400 of the superintendent's salary from the State school fund.

The Senate measure providing for the apportionment of school funds and distribution of State aid to schools in any year, following a condition of infectious contagion or plague, was passed by a unanimous vote of 124.

**Sells Hannon Residence**

The brick residence on Mulberry street, between Fourth and Fifth streets, owned by Mrs. Ida Hannon of St. Joseph, has been sold to James T. Wells, consideration $2,250. The deal was made through Robey & Anderson.

ALLIES PREVENT RUSSIAN AND HUNGARIAN MERGER

## DEFEAT SPARTACID EPLOT

**Americans Break Up Plan to Use Russian Prisoners in Hungarian Revolution.**

London, March 28.—Polish and Roumanian fronts are to be joined with the Allied forces on the center to prevent merger of the Russion and Hungarian Bolshevik armies, it was evident today from developments in the East. The Rumanians continue to advance in Galicia while the Czech troops are in action against Hungary.

London, March 28.— An uprising in which the Spartacides planned the use of thousands of Russian prisoners today in an effort to back up the Bolsheviki revolution in Hungary was nipped in the bud by Americans in Berlin, said an exchange Telegraph dispatch from that city. The Americans seized the Russians during the night, rushing them out of th city on trains scattered throughout the whole country.

**RADICALS STILL ACTIVE.**

## THREE BOYS HELD FOR TRIAL

**John and Chas. Thompson and Geo. Gibbs, Unable to Give Bond, Are Guests of Sheriff Dowden.**

John and Charles Thompson and George Gibbs, the three boys arrested the first of the week charged with robbing the home of Martin Pederson, two miles north of Guilford, were arraigned before Justice W. L. Johnson this morning and were bound over for trial at the coming court term. Bond was fixed at $500 each and failing to give it they will be guests of Sheriff Dowden.

The articles stolen from the Pederson home, shirts, ties, shoes, cuff buttons, etc., and a small sum of money were found in the boy's possession. The boys confessed to stealing three bicycles in St. Joseph which they later traded to a man for a horse, selling the animal for $7. The boys gave their ages at eighteen and nineteen and their home as Rockford, Ill.

## TAKE TO GHECKERS

YANKS AT COBLENZ CLEAN OUT CHECKERBOARD MARKET.

## 10.000 ON LEAVE DAILY

**Yanks with the Army of Occupation See the Sights, Buy Souvenirs, and Go to the Movies.**

Coblenz, Germany, Mar. 28.—The checker and chess market in Coblenz is as clean as a bleached bone You cannot, in a shop in Coblenz today, buy or steal a checkerboard and checkers or a game of chess. Blame it on the doughboy. After many months, when war was the only game that meant anything in his life, he was returned to one of his favorite S. O. S. pastimes with as much enthusiasm as he will pitch into that often dreamed of first meal at home.

Two thousand soldiers come into Coblenz daily on leave. They see the sights; they buy souvenirs; they go to the movies; they eat two real meals as the guests of the Y. M. C. A.; they play checkers and chess. Go into the Fest Halle lounge, for instance, at any hour of the day between 10 o'clock in the morning and 9:30 at night and you will see many a game of checkers that would make Christy Matheson, who knows almost as much about checkers as he does about baseball, stop to watch.

When the Y. M. C. A. took over the Fest Halle, or municipal theater, as a club for the soldiers of the Third Army, it introduced checker boards and a few sets of chess along with newspapers and magazines and phonographs. The papers and magazines were glanced at and forgotten. The phonographs were played occasionally. But the checkers and the chess—especially the checkers—were in constant use.

And so they have continued. The call for them has been so great that every game in the city has been bought by the Y. M. C. A. Not only the Fest Halle lounge and the new reading room, but also each "Y" canteen in the area—nineteen in all—has enough checkerboards and chess-men to keep the waiting list down to a minimum. At the Fest Halle, the first ones to arrive in the morning and the last ones to be routed out by the M. P's at night are the checker fiends.

## WOMEN IN LEAGUE

COMMISSION DECIDES THEY MAY HOLD OFFICES

## A WITHDRAWAL CLAUSE

**New Draft Says That No Nation May Quit Unless Giving Two Years Notice to Other Members.**

Paris, March 28.—Although the League of Nations covenant as amended, is today in the hands of a special drafting committee, it was learned that the powers have not yet reached a decision upon the question of establishing a general staff to work with the league. This proposal, which the French have been working hard for, will come up along with the Monroe Doctrine question and the Japanese demand for racial equality when the special committee submits the new draft to the League of Nations commission.

One of the final decisions of the commission before putting the covenant into the hands of the drafting committee, was to allow women to hold any office in the league, even that of chairmanship of the executive council through which the league will make its decision. Under the amended conditions no nation can withdraw from the league without giving two years notice to the other members.

London, March 28.—Plea for disarmament as one of the essential conditions to the success of the League of Nations is made by Premier Lloyd George in message in which will be printed in League of Nations edition of the Manchester Guardian tomorrow.

## CANNON INTO LOAN MEDALS

**German Trophies Are Being Melted by Treasury Department for Souvenirs for Victory Loan Workers.**

Official announcement is made by the United States Marine Corps Recruiting Headquarters, Ninth and Main Streets, Kansas City, Missouri, that German cannon captured by the Doughboys and Leatherbacks at Chateau-Thierry are being melted up by the United States Treasury Department and made into medals to be awarded workers in the forthcoming Victory Loan Campaign. Every city, town and hamlet in the country will receive its quota of these souvenir-medals, which will have a replica of the United States Treasury building on one side, and appropriate inscription on the other, with space for the holder's name to be engraved thereon.

The second division, United States Army, which captured these cannon, was composed of regular army regiments, and United States Marines. The division is commanded by General John A. Le June of the United States Marine Corps. The division lost 24,385 officers and men wounded or killed. This is ten per cent of the total casualties of the entire American Expeditionary Force. The second division captured 12,026 prisoners, or one-fourth of the total of the A. E. F., and 343 cannon, one quarter of the total cannon captured by the A. E. F.

**STRICT RATIONING IN ENGLAND.**

London, Mar. 28.—Heavy fines are dispelling the idea that rationing is to slacken. For supplying a meat meal without taking a rations coupon for it, a Whitechapel Road restaurant keeper was yesterday fined $50 and costs. A Dudley butcher on the same day was fined $390 on nine charges of breaking the rations law. At St. Mary Gray in Kent a butcher was fined $150 for selling meat in excess of his ration coupons.

**Elmer Frazer Released.**

Edward Frazer, the son of Mrs. Myrtle Frazer of Quitman, returned today from a France. Young Frazer enlisted at the beginning of the war between the U. S. and Germany and had been overseas for the past eighteen months. He has now been released from duty.

## MISSOURI STATE LETTER.

Jefferson City.—Governor Gardner will make defense of the League of Nations in his speech introducing former President Taft in Convention Hall in Kansas ity. April 19. The governor has wired his acceptance of the invitation to introduce Taft. It is understood the governor will take virtually the same standing regarding the league that he did in his recent speeches at Joplin and Sedalia. Taft's coming speech in Senator Reed's home city is regarded here as an attempt to offset the speech of Senator Reed against the League. Governor Gardner's prospective appearance there is taken here as virtual notice to the state that the governor disagrees with Senator Reed.

Jefferson City.—A hearing will be by the House Elections Committee on the St. Louis annexation act, Friday night.

Representative Wagner introduced the bill, which provides that an annexation election in the county must be petitioned for by at least 1,500 citizens. Two similar measures have been killed in committee.

Representative Chaney of St. Louis has polled the Election Committee and has found that every member except Representative Bittner of St. Louis favors the bill. Bittner's opposition may endanger favorable action.

Jackson Johnson, president of the St. Louis Chamber of Commerce has promised to speak for the bill.

St. Louis.—Bainbridge Colby, New York lawyer, former member of the Shipping Board and president in the Progressive party movement of 1912, will come to St. Louis within the next three weeks to open his campaign for the League of Nations, according to announcement from Washington. Supports of the league are expecting this campaign to counteract the attacks made by Senator Reed.

St. Louis.—"I would rather that my son were killed in France that that he should be forced to come home and beg on the streets," said Harry Lauder, the Scotch comedian, at a luncheon at the Missouri Athletic Club Association here given by the Members' Conference of the Chamber of Commerce and the audience that packed the gallery and corridors adjoining the dining room cheered his to the echo.

"A woman, prominent in the city," he said, "told me that there were soldiers begging on the streets of St. Louis. This organization of business men is strong, very strong, and I want it to be strong that it will be honored and respected throughout the United States. I hope it will do what it can to keep these men who have returned from the cantonments and overseas from being idle. We ought all be willing to work for those who were willing to give their lives for others."

"We sing that the war is over," Lauder continued, "some of us even think that the war is over, but it isn't. W will have to work as hard during the next four years as we did during the war unless we want to have it all to do over again. We must build on a solid foundation this time, and we must build right up to God.

"The War was a struggle between two Gods; the god ot justice and truth and the god of plunger and murder. The God of Right was bound to win.

"The war was won by the English-speaking peole. They are th only ones who could whip the kaiser and his junkers. I am as much an American as I am a Britisher and I do not want to see the wily German get into our schools. The United States is an English-speaking nation. German is alright in only one place—Germany.

"We were careless before the war. We bought cheap German goods—and they were the dearest good we ever bought. I hop none of us will ever buy any more of them."

**Estimating the Weight of Silage.**

It is often necessary to estimate the capacity of silos of the weight or silage under various conditions. Such estimates are usually made by the use of tables published by silo manufacturers of by experiment stations. These tables are all based on a table published by King in 1893. Even when the tables are used according to the directions of the originator the results are too high, and as they are generally applied the tonnage is often estimated 25 per cent above the actual weight of the silage. From a four-year experiment with 32 silos it is apparent, according to C. H. Eckles. of the University of Missouri College of Agriculture, that no table used for estimating the capacity of silos and the weight of silage at the time of filling is adapted for estimating the weight of settled silage. The weight per cubic foot at the time of filling varies widely with the depth of the silo. the percentage of moisture in the silage, the proportion of grain, the thoroness of packing, the rate of filling, and the diameter of the silo. On account of the many complications influencing the weight of silage it is impossible to give any estimate of the weight that is more than an approximate. Whenever possible the weight of silage bought or sold should be actually determined rather than estimated. A more accurate table for estimating the weight of silage with directions for correcting for conditions is published by the Missouri Agricultural Experiment Station, in a circular called "Estimating the Capacity of Silos and the Weight of Silage," which will be sent free on request.

## CLAYPOOL HANDLES PUBLICITY.

**Former Commercial Club Secretary Visits Missouri Towns.**

Every parish in the state of Louisiana met or exceeded its membership quota in the race to get the franchise for the Jefferson Highway in accordance with the great Jefferson Highway idea. E. M. Claypool, publicity commissioner for the "Vacation Route of America," who was in Bethany last week, says the Bethany Republican, stated that the March issue of The Modern Highway, formally the Jefferson Highway Declaration, contains a most interesting story about a little town in Louisiana that exceeded its quota 690 per cent, although it is situated 25 miles from the Jefferson.

It seems that the Highway passes through Winn parish for a distance of five miles. Winnfield is the parish seat, but it a score and five miles away from the "Pine to Palm" route. Although the quota of membership was ten, Winnfield at a meeting subscribed eighteen, and later has raised the total number to seventy-three memberships. In return for this Winn parish is to receive the franchise for the highway, have a strong voice in the state association by reason of its voting power, and gain nation-wide publicity because of its remarkable interest in the Jefferson Highway.

The monthly magazine, in the interests of which Mr. Claypool was in Bethany, has grown so rapidly that it now has a national scope and influence. Therefore, at the meeting of the International Board in New Orleans in January, it was decided that the name be changed to The Modern Highway.

**DOING HER BIT.**

"More than a year ago I took a course of Mayr's Wondrful Remedy for gall stones, severe colic and stomach trouble and have been entirely well ever since. I have recommened it to many other stomach sufferers, as I felt it was my duty to tell them just how much good it has done me." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.—Maryville Drug Co., and Druggists Everywhere.—Adv.

## MOTHERS TO BE

**Should Read Mrs. Monyhan's Letter Published by Her Permission.**

Mitchell, Ind.—"Lydia E. Pinkham's Vegetable Compound helped me so much during the time I was looking forward to the coming of my little one that I am recommending it to other expectant mothers. Before taking it, some days I suffered with neuralgia so badly that I thought I could not live, but after taking three bottles of Lydia E. Pinkham's Vegetable Compound I was entirely relieved of neuralgia, I had gained in strength and was able to go around and do all my housework. My baby when seven months old weighed 19 pounds and I feel better than I have for a long time. I never had any medicine do me so much good."—Mrs. PEARL MONYHAN, Mitchell, Ind.

Good health during maternity is a most important factor to both mother and child, and many letters have been received by the Lydia E. Pinkham Medicine Co., Lynn, Mass., telling of health restored during this trying period by the use of Lydia E. Pinkham's Vegetable Compound.

**Is Also Relieved of Rheumatism Through Taking Course Of Tanlac.**

"I not only gained thirty pounds on a few bottles of Tanlac but can do more work than I have been able to do at any time in the last ten years," said C. B. Gwin, a well-known produce merchant of Amory, Miss.

"For a long time my system was debilitated," he continued, and my digestion out of order so I could hardly eat a thing. I suffered from awful headaches, my nerves were on a strain and my muscles felt like they were tied into knots with rheumatism; I lost weight and got weaker every day.

"I was induced to try Tanlac by a friend and it is making a new man of me. I now eat and sleep better than I have in years, my rheumatism is all gone and I feel stronger and better than I have in a long time.

Tanlac is sold in Maryville by the Koch Pharmacy and by A. M. Colly, Conception Junction; H. M. Lincoln, Pickering, and Carter Pharmacy, Burlington Junction, Mo., and in Barnard by Bear Drug Store, in Elmo by King Drug Co., and in Clearmont by Dr. W. H. Wiley.—Adv.

**Pleased to Give Advice.**

The Commercial Club of the county seat some time ago decided to organize a band and last week the committee in charge reported sufficient funds to finance the venture. It is contemplating the organization of a band of twenty pieces and a Mr. Gsell has been employed as director. About all we have to say, outside of endorsing such a move on the part of our neighbor, is that they'll have to go some to get into the class with the Burlington Junction Band (twenty pieces) and if they desire any professional advice any of our boys will be pleased to furnish it. Come over Friday, April 4, and hear the second series of concerts to be given by the Burlington Junction Concert Band.—Burlington Junction Post.

## SOLDIERS MEMORIAL IDEAS

**M. V. Baker of Barnard, Civil War Veteran, Gives Ideas for Soldiers Memorial of Nodaway County.**

M. V. Baker of Barnard, a veteran of the Civil war, advances another idea regarding the building of a soldiers' Memorial for Nodaway county. His idea carries with it much weight since he has been very active in the G. A. R. work and has had much experience with the Civil War veterans in the past fifty years. The following is from the Barnard Bulletin:

Mr. Baker's idea is to build a large two story building in a good location in Maryville, fitting up the lower part as a good store building and the upper story to be fitted up for soldiers alone. The rental from the store room would pay for the maintainence of the hall and insure its being kept in good repair. In the upper room should be kept the records of every man who saw service, his service records, his officers, his engagements, etc. These records would be kept by townships and should prove a valuable bit of history in later years.

Mr. Baker thinks the money should be raised through popular subscription and the building dedicated to the boys and deeded to them, they to have absolute control of the property. He points out that had the G. A. R. built a home as was done in Bedford, Ia., instead of renting a meeting place, the organization would be flourishing today in this county. He thinks that the boys should absolutely own and control their home.

## FRECKLES

**March Worst Month for This Trouble —How to Remove Easily.**

There's a reason why nearly everybody freckles in March, but happily there is also a remedy for these ugly blemishes, and no one need stay freckled.

Simply get an ounce of Othine, double strength, from your druggist and apply a little of it night and morning, and in a few days you should see that even the worst freckles have begun to disappear, while the light ones have vanished entirely. Now is the time to rid yourself of freckles, for if not removed now they may stay all Summer, and spoil an otherwise beautiful complexion. Your money back if Othine fails.—Adv.

**Spraying the Orchard.**

Missouri orchardist have found spraying indispensible to the production of good fruit. For an orchard of fifteen or twenty to two or three hundred trees, a good barrel outfit should be provided, says V. R. Gardner of the University of Miss College of Agriculture. This consists of a good strong spray pump mounted in a heavy barrel and provided with a cut off or valve to control the flow of the spray materials, a lead of good strong hose twelve or fifteen feet long, an extension rod eight or ten feet long, and a suitable nozzle. A good barrel outfit of this sort together with all of the accessories may be obtained for $25 or $30. Nearly all of the manufacturers of spraying equipment are prepared to furnish outfits of this type. With good care, such an outfit will last for many years and with it good efficient work may be done. No one with a home orchard of even twelve or fifteen good size trees should be without an outfit of this kind. The fruit obtained from such a small orchard during a single average season would more than pay the cost of the outfit.

Fortunately it is necessary for the fruit growers to provide themselves with only two or three kinds of spraying materials. In most cases a supply of arsenate of lead and of lime sulphur is sufficient to control satisfactorily the common insects and diseases of the orchard. As the spraying season is close at hand, all those who contemplate spraying should provide themselves immediately with suitable spraying equipment and spraying materials. Timeliness is of great importance for the success of all orchard spraying work. The importance of acting quickly if the work is done this season cannot be over emphasized.

Most farm papers acrry the advertisements of firms dealing in both spray machinery and spray materials. Those interested in the subject of spraying should consult these advertisements, or this information will be given by the Department of Horticulture, University of Missouri upon request. The Department is also prepared to furnish detailed information as to the time of application, amounts to use and other points of interest.

Jimmie Harrington brought some chickens to market recently and among them was on Barred Plymouth Rock hen that weighed 11 pounds. The price for hens that day was 24 cents a pound so you see the hen brought $2.64. This hen weighed just a pound more than the one sold by Abe Loucks a few weeks ago for $2.50.—Skidmore News.

**Catarrh is a Real Enemy and Requires Vigorous Treatment**

**Do Not Neglect It.**

When you use medicated sprays, atomizers and douches for your Catarrh, you may succeed in unstopping the choked-up air passages for the time being, but this annoying condition returns, and you have to do the same thing over and over again.

Catarrh has never yet been cured by these local applications. Have you ever experienced any real benefit from such treatment?

Throw these makeshift remedies to the winds, and get on the right treatment. Go to your drug store to-day, get a bottle of S. S. S., and commence a treatment that has been praised by sufferers for nearly half a century.

S. S. S. gets right at the source of Catarrh, and forces from the blood the germs which cause the disease. You can obtain special medical advice regarding your own case without charge by writing to Medical Director, 22 Swift Laboratory, Atlanta, Ga.

### HAS SMALL COFFEE CROP.

**Production in Porto Rico Only One-Fourth of That Last Year.**

San Junan, Porto Rico, reports from the coffee districts are of a most disturbing sort. Because last year it was hard to get ships to carry ... ir coffee to market, the majority of the growers seemed to think it was no use growing coffee. As a result the crop is only 25 per cent of what it was last year.

There are many reasons aside from indifference which prompted planters to reduce their acreage. One was the lack of labor, a special drive having been made here for labor for war plants in the states.

The higher wages offered took plantation workers away in droves, and while at least half of those who went to the United States proper under promise of great betterment, found nothing but disappointment. The planters, lacking help, were compelled to cut down their acreage and the tremendous shortage is the result. What makes the situation worse is that there has been a gradually lessening acreage since the outbreak of the war in 1914 and there little reserve stock on hand.

### SENOR SALUS WRITES.

**Expresses Appreciation of Good Time Here to Prof. Cooper.**

Senor Max Salus, president of the State Normal Scohol at Santiago, Chile, South America, who spent several days in Maryville a couple of weeks ago, visiting the schools and studying their methods, in the interest of his own work was very much pleased and in the following letter to Prof. Bert Cooper, superintendent of schools, expresses is thanks.

Senor Salus found it difficult to always express himself correctly in English and these peculiarities are noticed in the writing:

My Dear Sir—Pardon me, if I write to you in English. Excuse my liberty. I remember gladly your kindness, I enjoyed vedy much in your company and the outing was very instructing, inspecting your well directed schools of Nodaway County.

I than kyou for the trouble that you gave yourself; and I ask you to express my gratitude to all your friends, who were so kind to me. Ihave been ill several days with fever, but now I am improving and I hope I shall be able to go to some schools tomorrow. For that reason I have not written to you before.

If you permit me, I should wish to make you a request. I left forgotten my rubbers in the hotel, down, in the room of the man who cleans the shoes. Could you send to me? I put here one dollar for that. I shall thank you for this attention. Please accept my best wishes for your happiness and believe me your sincere friend.

## "Gee-Whiz! How it Hurts—The Pain in My Foot!"

"Sometimes it is in my arm. Merciful Heaven, how my back hurts in the morning!" It's all due to an overabundance of that poison called uric acid. The kidneys are not able to get rid of it. Such conditions you can readily overcome, and prolong life by taking the advice of Dr. Pierce, which is "keep the kidneys in good order." "Avoid too much meat, alcohol or tea. Drink plenty of pure water, preferably hot water, before meals, and drive the uric acid out of the system by taking Anuric." This can be obtained at almost any drug store.

Send a bottle of water to the chemist Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., and you will receive free medical advice as to whether the kidneys are affected. When your kidneys get sluggish and clog, you suffer from backache, sick-headache, dizzy spells, or twinges of pains of lumbago, rheumatism or gout; or sleep is disturbed two or three times a night, take heed, before too late. Get Anuric (anti-uric-acid), for it will put new life into your kidneys and your entire system. Ask your nearest druggist for it or send Dr. Pierce ten cents for trial package.

### WAS BUSY EXPLAINING

**Thinks Newspaper Offices Have a Super Abundance of A's.**

If Charles D. Nicholas didn't have a real simon-pure genial disposition, known all over Nodaway county, he might have a good case of "peeve" on. The other day it was reported that Nicholas had lost a fine horse which plunged off a bridge while being worked to a road drag, and was drowned. The owner of the horse and also the good roads worker happened to be Charles Nichols, but C. D. had to take all the jollying from his friends who accused him of being a poor driver and swears he had to neglect his farm work to explain that "a" didn't belong in the name.

## KEEP LOOKING YOUNG

**It's Easy—If You Know Dr. Edwards' Olive Tablets**

**The secret of keeping young is to feel young — to do this you must watch your liver and bowels — there's no need of having a sallow complexion — dark rings under your eyes — pimples — a bilious look in your face — dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.**

**Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.**

**Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that exuberance of spirit, that natural buoyancy which should be enjoyed by everyone, by toning up the liver and clearing the system of impurities.**

NEW TREATMENT THAT KNOCKS RHEUMATISM

**75c BOX FREE TO ANY SUFFERER**

Up in Syracuse, N. Y., a treatment for rheumatism has been found that hundreds of users say is a wonder, reporting cases that seem little short of miraculous. Just a few treatments even in the very worst cases seem to accomplish wonders even after other remedies have failed entirely. It seems to neutralize the uric acid and lime salt deposits in the blood, driving all the poisonous clogging waste from the system. Soreness, pain, stiffness, swelling just seem to melt away and vanish.

The treatment first introduced by Mr. Delano is so good that its owner wants everybody that suffers from rheumatism or who has a friend so afflicted, to get a free 75c package from him to prove just what it will do in every case before a penny is spent. Mr. Delano says: "To prove that the Delano treatment will positively overcome rheumatism, no matter how severe, stubborn or long standing the case, and even after all other treatments have failed, I will, if you have never previously used the treatment, send you a full size 75c package free if you will just cut out this notice and send it with your name and address with 10c to help pay postage and distribution expense to me personally."

## UNIVERSAL TRACTOR

*It Solves The Farm Help Problem*

The amount of work turned out by one man and this wonderful little farm giant will surprise any farmer who is using horses for draft purposes and those who have tractorized their farms would no more go back to horse drawn implements than they would undertake to travel over the country roads without an automobile.

This is a very ordinary statement which most any of our users of Moline Universal Tractors make when asked what they think about using tractors for farming, what these owners are doing may be done by YOU.

Mr. Frank N. Miller says:—"I would not attempt to farm without my Moline Universal Tractor, every kind of work where I use horses is now done with my tractor and the amount I turn out is much more than ever before when horses were used on my farm. I consider the acreage of wheat it enabled me to plant last fall over our former horse drawn implements will pay for my Moline Universal Tractor."

## 5,500 STILL MISSING

PERSHING REPORTS CONTINUED EFFORTS TO ACCOUNT FOR ALL

## MANY BODIES ARE FOUND

**Identification of Re-interred Bodies Is Reason for Continued Casualty Lists.**

Washington, March 28.—General Pershing reported to the war department yesterday that there are still 5,500 officers and men of the expeditionary forces listed as missing. This total compares with the British official figures of 161,800 missing and the French 290,000.

All of the 5,500 names have been reported as "missing" in casualty lists already published, the report said. Re-interments of bodies from isolated graves in the centralized identification in a number of cases and for this reason the records of the Grave Registration service are being carefully studied

Re-examination of grave registration reports and also of hospital records referred to by General Pershing was said by officials at the war department to explain the "killed in action," and "wounded in action" casualties still appearing in the daily casualty lists sent out by the department.

The British war office, General Pershing's report said, had adopted the policy of considering twenty-six weeks in the case of an officer and thirty weeks for an enlisted man as the length of time after the man had been recorded as missing before death is presumed. In the French army, he said, no definite period had been fixed.

No accurate estimate of unreported deaths can be given, said General ePrshing's report. There are, however, approximately 5,500 missing to be accounted for, all of whom have been reported to Washington as missing Re-interment of bodies removed from isolated graves to centralized cemeteries is furnishing additional identification of deaths hitherto reported as missing.

Access to sites of prison camps in Germany and to territory formerly within enemey lines is leading to discovery of many American graves and identification of casualties previously reported as missing.

Each company or other unit of the American Expeditionary Forces have heretofore been furnished a complete list of officers and men carried as missing up to Feb. 1, it was said. All units are required to display such list in places accessible to members of command for the purpose of securing casualty information from every possible source.

Consideration should be given to the fact that method of warfare as well as the extent of terrain fought over, lent exceptional difficulties to discovery and burial of dead, it was pointed out. Burial parties frequently completed their mission under heavy fire, and it often could only be done under cover of darkness, thus making identification difficult and often impossible.

As rapidly as identification can be completed from information originally filed or subsequently obtained from every possible source, correct present status of each case is being reported by cable, it was said.

Miss Marion Huff, a government teacher in the Phillipines Islands, will make an address at the Wilcox Methodist Sunday school Sunday morning at ten o'clock. Miss Huff formerly taught in the Maryville and Burlington Junction schools, and is well known through this vicinity.

## NAME FAIR DATES AUG. 4-9

**Fair Association Directors Decide the Event Shall Be Earlier—Will Effect Reorganization.**

The Nodaway County fair this year will be held August 4 to 9. These dates were decided on today at a meeting of officials and directors of the association. The Nodaway county fair will follow the fair at Bedford, Iowa, and is almost a month earlier than the dates of former years.

Wm. Hanecy, one of the out of town stockholders of the fair association, is here today and with other stockholders and directors a reorganization of the association will in all probability be effected.

Following the transfer of the fair grounds property last year to the present owners, the deal being completed but two months before time for the fair, a working organization was hurriedly effected in order that the event might be held as had been scheduled. A reorganization is deemed desirable in order that an early start may be had in getting things ready and booking attractions for this years fair.

## SET CLOCKS AHEAD MAR. 30

**Beginning Next Sunday Morning There Will Be Another 6 Months of Daylight Saving.**

Under the federal daylight saving law, the time will be advanced one hour at 2 o'clock Sunday morning, March 30. Some confusion is expected to result, as there will be a number in each community who will neglect to change their timepieces and until their attention is called to the fact by some resulatant mishap, they will be trailing along an hour behind the rest of the world.

When the law first went into effect last spring, many rebelled at the new custom and clung to the old time—until they got tired of always being mixed up in everything in which the time of day was involved.

A determined effort was made by certain interests, mainly the agriculturists, in the closing days of congress to bring about a repeal of the daylight saving law, but congress was so busy with so many other things that no action was taken on the matter.

## $20,000 TO REPAIR NORMAL

**Legislature Makes Appropriation to Replace Loss Due to Recent Storm—Work is in Progress.**

The legislature this week at Jefferson City made a special appropriation of $20,000 for the purpose of repairing the State Normal school building which was damaged recently in the storm. President Ira Richardson, who took the matter up with the legislature, returned from Jefferson City last night.

Work is already in progress in repairing the damage.

## APRIL COURT TERM

WILL BEGIN MONDAY, APRIL 7 138 CASES ON DOCKET

## "PAINTERS" TO TRIAL

**Case of Maryville Business Men Charged with Felonious Assault Will Be Heard—69 Trial Cases.**

Judge John M. Dawson of the circuit will find a well filled docket when the April term begins Monday, April 7, morning with a total of one hundred and thirty-eight cases to dispose of. The criminal docket will furnish several interesting cases.

The case of Clint Hewitt, charged with the theft of hogs, which resulted in a mistrial at the last term of court will hold a large amount of interest for residents of the Pickering neighborhood.

Dr. A. D. Barnett, charged with assault with intent to kill, Charley Gibb, charged with perjury, William J. Wagner charged with a statutory offense, several persons charged with violation of the local option law and gaming, and assault and battery cases make up a large part of the criminal docket.

On the parole docket twenty-five persons are called to appear before the court. The trial docket has sixty-nine cases down for hearing, while the equity docket has a total of twenty-seven cases to be heard.

## CANDIDATES IN A CONTEST

**Well Known Burlington Junction Men Running for Justice of the Peace Advertise Each Other.**

A feature of the election at Burlington Junction Tuesday was the friendly rivalry between Charles I Hann, cashier of the First National Bank, and Robert N. Barber, cashier of the Northwestern bank of that town, candidates through no fault of their own for Justice of the peace on opposing tickets. Barber wanted to see Hann elected, so a placard was posted supposedly coming from Hann promising the people all sorts of justice should they elect him. Then the Hann forces secured a bell and a youth and gave the youth the bell and a sign calling on the people not to overlook the unusually qualifications of Mr. Barber for the position of justice of the peace. The boy, the bell and the placard were marched up and down the streets, and, as advertising always pays, Barber's name led all the rest in number of votes received.

## ORDER TO TURN CLOCKS UP

**Railroads and Postoffices Instructed to Observe Daylight Saving Law. Hour of Church Services to Change.**

Sunday morning is the time to turn up the clocks an hour in order to comply with the daylight saving war measure. Agent W. E. Goforth of the Burlington and E. L. Ferritor of the Wabash have received orders to turn up their clocks an hour. Similar orders have been received at the postoffice here.

Nearly all of the stores and banks will observe the law.

All of the churches of the city will change the hour of their evening services next Sunday because of the new time. Young People's societies will commence their meetings at 7 p. m. and the evening preaching services will commence at 8 p. m.

**REVIVAL HAS GOOD RESULT.**

**Pickering Church Received 42 New Members—Service at Myrtle Tree Sunday.**

The Rev. O. S. Dayhoff, pastor of the Methodist church at Pickering, will preach at the Myrtle Tree church Sunday morning and at the Pickering church Sunday night. Preceding the Sunday night church service, the Epworth League will be reorganized and plans made for the carrying on of their work.

Last Sunday the Rev. J. R. Harper of St. Joseph, preached at the Pickering church at both the morning and evening hours. A baptismal service took place after the church service in the morning and the pastor, Rev. Dayhoff, baptised twenty-eight and received fourteen others into membership, making forty-two new members as the result of a four weeks' revival service which ended that day. The Pickering church is a very wide-awake organization and has been having great success in all its work.

## BURNED $1,000 SCHOOL BOND

**Board of Education Reduces Bonded Indebtedness—Saving to Taxpayers of Interest Charges.**

In pursuance to an order of the Board of Education at the last meeting ordering the purchase of Bond No. 66 for $1,000 due July 20, 1925, the bond was purchased by the treasurer and was today burned in the presence of L. C. Cook, Dr. Jesse Miller, E. E. Williams, James B. Robinson and George Pat Wright

This bond was one of the original issue of $75,000.00 issued in July, 1908, due July 1928. The retirement of this bond leaves a balance yet due on the original bonded indebtedness of the district of $10,000.00. Thus it will be seen that the board has acted wisely in paying off the bond before due. While the bonds are not due until 1928 it has been the policy of the board to purchase and retire bonds as rapidly as funds would permit, thus saving to the tax payers large sums in interest charges. It is gratifying to note the small bond indebtedness of the district, which is now only $10,000.00.

## ADDS $737,822 TO COUNTY

**State Tax Commission Hikes Assessor's Returns for 1919—Farm Land at $85.50 per Acre.**

The state tax commission at Jefferson City has added $737,822 to the assessor's returns for Nodaway county for this year's taxes, making a total assessment of $68,610,284. This amount was recommended to the state board of equalization which will meet soon. Farm land values in Nodaway county were placed by the commission at $85.50 an acre, or total of $47,261,594.

In its letter which accompanies the report, the tax commission says that the assessment of 1918 is an improvement over that of the preceding year, "assessing officers generally having shown a greater respect for their official oaths, and a more intimate knowledge of the laws they administer. The assessors of but few counties have adhered to the old system of assessing property on a variety of fractional basis. Nearly all assessors have co-operated with the commission.

## MORE PAY FOR COUNTY SUPT'S

**Senate Passes Bill Providing for 50 Per Cent Increase—Ready for Governor's Signature.**

Jefferson City, March 28.—The House Wednesday passed the Senate bill providing for an increase of 50 per cent in the salaries of county superintendents with an emergency. The vote was 115 to 9. The measure will now go to Gov. Gardner and when signed will increase the salaries of the superintendents, who will be elected at the coming April election.

The bill provides a schedule of salaries from $1,050 to $2,250, according to the population of the county. The State will pay $400 of the superintendent's salary from the State school fund.

The Senate measure providing for the apportionment of school funds and distribution of State aid to schools in any year, following a condition of infectious contagion or plague, was passed by a unanimous vote of 124.

**Sells Hannon Residence**

The brick residence on Mulberry street, between Fourth and Fifth streets, owned by Mrs. Ida Hannon of St. Joseph, has been sold to James T. Wells, consideration $2,250. The deal was made through Robey & Anderson.

Miss Edna Brown of Fayette, is the guest this week of her sister, Mrs. H. R. Juvenal. Miss Brown is head of the Department of Oratory at Howard Payne college.

ALLIES PREVENT RUSSIAN AND HUNGARIAN MERGER

## DEFEAT SPARTACID EPLOT

**Americans Break Up Plan to Use Russian Prisoners in Hungarian Revolution.**

London, March 28.—Polish and Roumanian fronts are to be joined with the Allied forces on the center to prevent merger of the Russion and Hungarian Bolshevik armies, it was evident today from developments in the East. The Rumanians continue to advance in Galicia while the Czech troops are in action against Hungary.

London, March 28.— An uprising in which the Spartacides planned the use of thousands of Russian prisoners today in an effort to back up the Bolsheviki revolution in Hungary was nipped in the bud by Americans in Berlin, said an exchange Telegraph dispatch from that city. The Americans seized the Russians during the night, rushing them out of th city on trains scattered throughout the whole country.

**RADICALS STILL ACTIVE.**

Berlin, March 28.—A dictatorship has been established at Leipzig by the cummunists. The radicals in Wuertemburg have proclaimed a general strike to support their demand for nationalization of industries. The soviets have ordered that Saxony be "communized" along line of Bavaria.

**REFUSES TO ABDICATE**

Geneva, March 28.—Former Emperor Charles of Austria has refused to abdicate and has renounced his declaration of November 11 because he was compelled to make it under pressure, a Vienna newspaper says.

**75 KILLED IN VENICE HARBOR.**

## THREE BOYS HELD FOR TRIAL

**John and Chas. Thompson and Geo. Gibbs, Unable to Give Bond, Are Guests of Sheriff Dowden.**

John and Charles Thompson and George Gibbs, the three boys arrested the first of the week charged with robbing the home of Martin Pederson, two miles north of Guilford, were arraigned before Justice W. L. Johnson this morning and were bound over for trial at the coming court term. Bond was fixed at $500 each and failing to give it they will be guests of Sheriff Dowden.

The articles stolen from the Pederson home, shirts, ties, shoes, cuff buttons, etc., and a small sum of money were found in the boy's possession. The boys confessed to stealing three bicycles in St. Joseph which they later traded to a man for a horse, selling the animal for $7. The boys gave their ages at eighteen and nineteen and their home as Rockford, Ill.

## TAKE TO CHECKERS

YANKS AT COBLENZ CLEAN OUT CHECKERBOARD MARKET.

## 10,000 ON LEAVE DAILY

**Yanks with the Army of Occupation See the Sights, Buy Souvenirs, and Go to the Movies.**

Coblenz, Germany, Mar. 28.—The checker and chess market in Coblenz is as clean as a bleached bone You cannot, in a shop in Coblenz today, buy or steal a checkerboard and checkers or a game of chess. Blame it on the doughboy. After many months, when war was the only game that meant anything in his life, he was returned to one of his favorite S. O. S. pastimes with as much enthusiasm as he will pitch into that often dreamed of first meal at home.

Two thousand soldiers come into Coblenz daily on leave. They see the sights; they buy souvenirs; they go to the movies; they eat two real meals as the guests of the Y. M. C. A.; they play checkers and chess. Go into the Fest Halle lounge, for instance, at any hour of the day between 10 o'clock in the morning and 9:30 at night and you will see many a game of checkers that would make Christy Matheson, who knows almost as much about checkers as he does about baseball, stop to watch.

When the Y. M. C. A. took over the Fest Halle, or municipal theater, as a club for the soldiers of the Third Army, it introduced checker boards and a few sets of chess along with newspapers and magazines and phonographs. The papers and magazines were glanced at and forgotten. The phonographs were played occasionally. But the checkers and the chess—especially the checkers—were in constant use.

And so they have continued. The call for them has been so great that every game in the city has been bought by the Y. M. C. A. Not only the Fest Halle lounge and the new reading room, but also each "Y" canteen in the area—nineteen in all—has enough checkerboards and chess-men to keep the waiting list down to a minimum. At the Fest Halle, the first ones to arrive in the morning and the last ones to be routed out by the M. P's at night are the checker fiends.

## WOMEN IN LEAGUE

COMMISSION DECIDES THEY MAY HOLD OFFICES

## A WITHDRAWAL CLAUSE

**New Draft Says That No Nation May Quit Unless Giving Two Years Notice to Other Members.**

Paris, March 28.—Although the League of Nations covenant as amended, is today in the hands of a special drafting committee, it was learned that the powers have not yet reached a decision upon the question of establishing a general staff to work with the league. This proposal, which the French have been working hard for, will come up along with the Monroe Doctrine question and the Japanese demand for racial equality when the special committee submits the new draft to the League of Nations commission.

One of the final decisions of the commission before putting the covenant into the hands of the drafting committee, was to allow women to hold any office in the league, even that of chairmanship of the executive council through which the league will make its decision. Under the amended conditions no nation can withdraw from the league without giving two years notice to the other members.

London, March 28.—Plea for disarmament as one of the essential conditions to the success of the League of Nations is made by Premier Lloyd George in message in which will be printed in League of Nations edition of the Manchester Guardian tomorrow.

## CANNON INTO LOAN MEDALS

**German Trophies Are Being Melted by Treasury Department for Souvenirs for Victory Loan Workers.**

Official announcement is made by the United States Marine Corps Recruiting Headquarters, Ninth and Main Streets, Kansas City, Missouri, that German cannon captured by the Doughboys and Leatherbacks at Chateau-Thierry are being melted up by the United States Treasury Department and made into medals to be awarded workers in the forthcoming Victory Loan Campaign. Every city, town and hamlet in the country will receive its quota of these souvenir-medals, which will have a replica of the United States Treasury building on one side, and appropriate inscription on the other, with space for the holder's name to be engraved thereon.

The second division, United States Army, which captured these cannon, was composed of regular army regiments, and United States Marines. The division is commanded by General John A. Le June of the United States Marine Corps. The division lost 24,385 officers and men wounded or killed. This is ten per cent of the total casualties of the entire American Expeditionary Force. The second division captured 12,026 prisoners, or one-fourth of the total of the A. E. F., and 343 cannon, one quarter of the total cannon captured by the A. E. F.

**STRICT RATIONING IN ENGLAND.**

London, Mar. 28.—Heavy fines are dispelling the idea that rationing is to slacken. For supplying a meat meal without taking a rations coupon for it, a Whitechapel Road restaurant keeper was yesterday fined $50 and costs. A Dudley butcher on the same day was fined $390 on nine charges of breaking the rations law. At St. Mary Gray in Kent a butcher was fined $150 for selling meat in excess of his ration coupons.

**Elmer Frazer Released.**

Edward Frazer, the son of Mrs. Myrtle Frazer of Quitman, returned today from a France. Young Frazer enlisted at the beginning of the war between the U. S. and Germany and had been overseas for the past eighteen months. He has now been released from duty.

## MISSOURI STATE LETTER.

Jefferson City.—Governor Gardner will make defense of the League of Nations in his speech introducing former President Taft in Convention Hall in Kansas ity, April 19. The governor has wired his acceptance of the invitation to introduce Taft. It is understood the governor will take virtually the same standing regarding the league that he did in his recent speeches at Joplin and Sedalia. Taft's coming speech in Senator Reed's home city is regarded here as an attempt to offset the speech of Senator Reed against the League. Governor Gardner's prospective appearance there is taken here as virtual notice to the state that the governor disagrees with Senator Reed.

Jefferson City.—A hearing will be by the House Elections Committee on the St. Louis annexation act, Friday night.

Representative Wagner introduced the bill, which provides that an annexation election in the county must be petitioned for by at least 1,500 citizens. Two similar measures have been killed in committee.

Representative Chaney of St. Louis has polled the Election Committee and has found that every member except Representative Bittner of St. Louis favors the bill. Bittner's opposition may endanger favorable action.

Jackson Johnson, president of the St. Louis Chamber of Commerce has promised to speak for the bill.

St. Louis.—Bainbridge Colby, New York lawyer, former member of the Shipping Board and president in the Progressive party movement of 1912, will come to St. Louis within the next three weeks to open his campaign for the League of Nations, according to announcement from Washington. Supports of the league are expecting this campaign to counteract the attacks made by Senator Reed.

St. Louis.—"I would rather that my son were killed in France that that he should be forced to come home and beg on the streets," said Harry Lauder, the Scotch comedian, at a luncheon at the Missouri Athletic Club Association here given by the Members' Conference of the Chamber of Commerce and the audience that packed the gallery and corridors adjoining the dining room cheered his to the echo.

"A woman, prominent in the city," he said, "told me that there were soldiers begging on the streets of St. Louis. This organization of business men is strong, very strong, and I want it to be strong that it will be honored and respected throughout the United States. I hope it will do what it can to keep these men who have returned from the cantonments and overseas from being idle. We ought all be willing to work for those who were willing to give their lives for others."

"We sing that the war is over," Lauder continued, "some of us even think that the war is over, but it isn't. W will have to work as hard during the next four years as we did during the war unless we want to have it all to do over again. We must build on a solid foundation this time, and we must build right up to God.

"The War was a struggle between two Gods; the god of justice and truth and the god of plunger and murder. The God of Right was bound to win.

"The war was won by the English-speaking peole. They are th only ones who could whip the kaiser and his junkers. I am as much an American as I am a Britisher and I do not want to see the wily German get into our schools. The United States is an English-speaking nation. German is alright in only one place—Germany.

"We were careless before the war. We bought cheap German goods—and they were the dearest good we ever bought. I hop none of us will ever buy any more of them."

**Estimating the Weight of Silage.**

It is often necessary to estimate the capacity of silos of the weight or silage under various conditions. Such estimates are usually made by the use of tables published by silo manufacturers of by experiment stations. These tables are all based on a table published by King in 1893. Even when the tables are used according to the directions of the originator the results are too high, and as they are generally applied the tonnage is often estimated 25 per cent above the actual weight of the silage. From a four-year experiment with 32 silos it is apparent, according to C. H. Eckles, of the University of Missouri College of Agriculture, that no table used for estimating the capacity of silos and the weight of silage at the time of filling is adapted for estimating the weight of settled silage. The weight per cubic foot at the time of filling varies widely with the depth of the silo, the percentage of moisture in the silage, the proportion of grain, the thoroness of packing, the rate of filling, and the diameter of the silo. On account of the many complications influencing the weight of silage it is impossible to give any estimate of the weight that is more than an approximate. Whenever possible the weight of silage bought or sold should be actually determined rather than estimated. A more accurate table for estimating the weight of silage with directions for correcting for conditions is published by the Missouri Agricultural Experiment Station, in a circular called "Estimating the Capacity of Silos and the Weight of Silage," which will be sent free on request.

## CLAYPOOL HANDLES PUBLICITY.

**Former Commercial Club Secretary Visits Missouri Towns.**

Every parish in the state of Louisiana met or exceeded its membership quota in the race to get the franchise for the Jefferson Highway in accordance with the great Jefferson Highway idea. E. M. Claypool, publicity commissioner for the "Vacation Route of America," who was in Bethany last week, says the Bethany Republican, stated that the March issue of The Modern Highway, formally the Jefferson Highway Declaration, contains a most interesting story about a little town in Louisiana that exceeded its quota 690 per cent, although it is situated 25 miles from the Jefferson.

It seems that the Highway passes through Winn parish for a distance of five miles. Winnfield is the parish seat, but it a score and five miles away from the "Pine to Palm" route. Although the quota of membership was ten, Winnfield at a meeting subscribed eighteen, and later has raised the total number to seventy-three memberships. In return for this Winn parish is to receive the franchise for the highway, have a strong voice in the state association by reason of its voting power, and gain nation-wide publicity because of its remarkable interest in the Jefferson Highway.

The monthly magazine, in the interests of which Mr. Claypool was in Bethany, has grown so rapidly that it now has a national scope and influence. Therefore, at the meeting of the International Board in New Orleans in January, it was decided that the name be changed to The Modern Highway.

**DOING HER BIT.**

"More than a year ago I took a course of Mayr's Wondrful Remedy for gall stones, severe colic and stomach trouble and have been entirely well ever since. I have recommened it to many other stomach sufferers, as I felt it was my duty to tell them just how much good it has done me." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.—Maryville Drug Co., and Druggists Everywhere.—Adv.

## MOTHERS TO BE

**Should Read Mrs. Monyhan's Letter Published by Her Permission.**

Mitchell, Ind.—"Lydia E. Pinkham's Vegetable Compound helped me so much during the time I was looking forward to the coming of my little one that I am recommending it to other expectant mothers. Before taking it, some days I suffered with neuralgia so badly that I thought I could not live, but after taking three bottles of Lydia E. Pinkham's Vegetable Compound I was entirely relieved of neuralgia, I had gained in strength and was able to go around and do all my housework. My baby when seven months old weighed 19 pounds and I feel better than I have for a long time. I never had any medicine do me so much good."—Mrs. PEARL MONYHAN, Mitchell, Ind.

Good health during maternity is a most important factor to both mother and child, and many letters have been received by the Lydia E. Pinkham Medicine Co., Lynn, Mass., telling of health restored during this trying period by the use of Lydia E. Pinkham's Vegetable Compound.

## PRODUCE MERCHANT GAINS 30 POUNDS

**Is Also Relieved of Rheumatism Through Taking Course Of Tanlac.**

"I not only gained thirty pounds on a few bottles of Tanlac but can do more work than I have been able to do at any time in the last ten years," said C. B. Gwin, a well-known produce merchant of Amory, Miss.

"For a long time my system was debilitated," he continued, and my digestion out of order so I could hardly eat a thing. I suffered from awful headaches, my nerves were on a strain and my muscles felt like they were tied into knots with rheumatism; I lost weight and got weaker every day.

"I was induced to try Tanlac by a friend and it is making a new man of me. I now eat and sleep better than I have in years, my rheumatism is all gone and I feel stronger and better than I have in a long time.

Tanlac is sold in Maryville by the Koch Pharmacy and by A. M. Colly, Conception Junction; H. M. Lincoln, Pickering, and Carter Pharmacy, Burlington Junction, Mo., and in Barnard by Bear Drug Store, in Elmo by King Drug Co., and in Clearmont by Dr. W. H. Wiley.—Adv.

**Pleased to Give Advice.**

The Commercial Club of the county seat some time ago decided to organize a band and last week the committee in charge reported sufficient funds to finance the venture. It is contemplating the organization of a band of twenty pieces and a Mr. Gsell has been employed as director. About all we have to say, outside of endorsing such a move on the part of our neighbor, is that they'll have to go some to get into the class with the Burlington Junction Band (twenty pieces) and if they desire any professional advice any of our boys will be pleased to furnish it. Come over Friday, April 4, and hear the second series of concerts to be given by the Burlington Junction Concert Band.—Burlington Junction Post.

**MAY KEEP MASKS AND HELMETS.**

Washington, D. C.—Soldiers who used gas masks and steel helmets during their service in France will be allowed to retain these souvenirs of their participation in the war for democracy, the War Department has ruled. If the men have turned in their masks and helmets these will be reissued to them upon application to the nearest zone supply officer.

## SOLDIERS MEMORIAL IDEAS

**M. V. Baker of Barnard, Civil War Veteran, Gives Ideas for Soldiers Memorial of Nodaway County.**

M. V. Baker of Barnard, a veteran of the Civil war, advances another idea regarding the building of a soldiers' Memorial for Nodaway county. His idea carries with it much weight since he has been very active in the G. A. R. work and has had much experience with the Civil War veterans in the past fifty years. The following is from the Barnard Bulletin:

Mr. Baker's idea is to build a large two story building in a good location in Maryville, fitting up the lower part as a good store building and the upper story to be fitted up for soldiers alone. The rental from the store room would pay for the maintainence of the hall and insure its being kept in good repair. In the upper room should be kept the records of every man who saw service, his service records, his officers, his engagements, etc. These records would be kept by townships and should prove a valuable bit of history in later years.

Mr. Baker thinks the money should be raised through popular subscription and the building dedicated to the boys and deeded to them, they to have absolute control of the property. He points out that had the G. A. R. built a home as was done in Bedford, Ia., instead of renting a meeting place, the organization would be flourishing today in this county. He thinks that the boys should absolutely own and control their home.

# FRECKLES

**March Worst Month for This Trouble —How to Remove Easily.**

There's a reason why nearly everybody freckles in March, but happily there is also a remedy for these ugly blemishes, and no one need stay freckled.

Simply get an ounce of Othine, double strength, from your druggist and apply a little of it night and morning, and in a few days you should see that even the worst freckles have begun to disappear, while the light ones have vanished entirely. Now is the time to rid yourself of freckles, for if not removed now they may stay all Summer, and spoil an otherwise beautiful complexion. Your money back if Othine fails.—Adv.

**Spraying the Orchard.**

Missouri orchardist have found spraying indispensible to the production of good fruit. For an orchard of fifteen or twenty to two or three hundred trees, a good barrel outfit should be provided, says V. R. Gardner of the University of Miss College of Agriculture. This consists of a good strong spray pump mounted in a heavy barrel and provided with a cut off or valve to control the flow of the spray materials, a lead of good strong hose twelve or fifteen feet long, an extension rod eight or ten feet long, and a suitable nozzle. A good barrel outfit of this sort together with all of the accessories may be obtained for $25 or $30. Nearly all of the manufacturers of spraying equipment are prepared to furnish outfits of this type. With good care, such an outfit will last for many years and with it good efficient work may be done. No one with a home orchard of even twelve or fifteen good size trees should be without an outfit of this kind. The fruit obtained from such a small orchard during a single average season would more than pay the cost of the outfit.

Fortunately it is necessary for the fruit growers to provide themselves with only two or three kinds of spraying materials. In most cases a supply of arsenate of lead and of lime sulphur is sufficient to control satisfactorily the common insects and diseases of the orchard. As the spraying season is close at hand, all those who contemplate spraying should provide themselves immediately with suitable spraying equipment and spraying materials. Timeliness is of great importance for the success of all orchard spraying work. The importance of acting quickly if the work is done this season cannot be over emphasized.

Most farm papers acrry the advertisements of firms dealing in both spray machinery and spray materials. Those interested in the subject of spraying should consult these advertisements, or this information will be given by the Department of Horticulture, University of Missouri upon request. The Department is also prepared to furnish detailed information as to the time of application, amounts to use and other points of interest.

Jimmie Harrington brought some chickens to market recently and among them was on Barred Plymouth Rock hen that weighed 11 pounds. The price for hens that day was 24 cents a pound so you see the hen brought $2.64. This hen weighed just a pound more than the one sold by Abe Loucks a few weeks ago for $2.50.—Skidmore News.

## Catarrh is a Real Enemy and Requires Vigorous Treatment

**Do Not Neglect It.**

When you use medicated sprays, atomizers and douches for your Catarrh, you may succeed in unstopping the choked-up air passages for the time being, but this annoying condition returns, and you have to do the same thing over and over again.

Catarrh has never yet been cured by these local applications. Have you ever experienced any real benefit from such treatment?

Throw these makeshift remedies to the winds, and get on the right treatment. Go to your drug store to-day, get a bottle of S. S. S., and commence a treatment that has been praised by sufferers for nearly half a century.

S. S. S. gets right at the source of Catarrh, and forces from the blood the germs which cause the disease. You can obtain special medical advice regarding your own case without charge by writing to Medical Director, 22 Swift Laboratory, Atlanta, Ga.

**HAS SMALL COFFEE CROP.**

Production in Porto Rico Only One-Fourth of That Last Year.

San Junan, Porto Rico, reports from the coffee districts are of a most disturbing sort. Because last year it was hard to get ships to carry their coffee to market, the majority of the growers seemed to think it was no use growing coffee. As a result the crop is only 25 per cent of what it was last year.

There are many reasons aside from indifference which prompted planters to reduce their acreage. One was the lack of labor, a special drive having been made here for labor for war plants in the states.

The higher wages offered took plantation workers away in droves, and while at least half of those who went to the United States proper under promise of great betterment, found nothing but disappointment. The planters, lacking help, were compelled to cut down their acreage and the tremendous shortage is the result. What makes the situation worse is that there has been a gradually lessening acreage since the outbreak of the war in 1914 and there little reserve stock on hand.

**SENOR SALUS WRITES.**

**Expresses Appreciation of Good Time Here to Prof. Cooper.**

Senor Max Salus, president of the State Normal Scohol at Santiago, Chile, South America, who spent several days in Maryville a couple of weeks ago, visiting the schools and studying their methods, in the interest of his own work was very much pleased and in the following letter to Prof. Bert Cooper, superintendent of schools, expresses is thanks.

Senor Salus found it difficult to always express himself correctly in English and these peculiarities are noticed in the writing:

My Dear Sir—Pardon me, if I write to you in English. Excuse my liberty. I remember gladly your kindness, I enjoyed vedy much in your company and the outing was very instructing, inspecting your well directed schools of Nodaway County.

I than kyou for the trouble that you gave yourself; and I ask you to express my gratitude to all your friends, who were so kind to me. Ihave been ill several days with fever, but now I am improving and I hope I shall be able to go to some schools tomorrow. For that reason I have not written to you before.

If you permit me, I should wish to make you a request. I left forgotten my rubbers in the hotel, down, in the room of the man who cleans the shoes. Could you send to me? I put here one dollar for that. I shall thank you for this attention. Please accept my best wishes for your happiness and believe me your sincere friend.

## "Gee-Whiz! How it Hurts—The Pain in My Foot!"

"Sometimes it is in my arm. Merciful Heaven, how my back hurts in the morning!" It's all due to an overabundance of that poison called uric acid. The kidneys are not able to get rid of it. Such conditions you can readily overcome, and prolong life by taking the advice of Dr. Pierce, which is "keep the kidneys in good order." "Avoid too much meat, alcohol or tea. Drink plenty of pure water, preferably hot water, before meals, and drive the uric acid out of the system by taking Anuric." This can be obtained at almost any drug store.

Send a bottle of water to the chemist Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., and you will receive free medical advice as to whether the kidneys are affected. When your kidneys get sluggish and clog, you suffer from backache, headache, dizzy spells, or twinges of pains of lumbago, rheumatism or gout; or sleep is disturbed two or three times a night, take heed, before too late. Get Anuric (uric-acid), for it will put new life into the kidneys and your entire system. Ask your nearest druggist for it, or send Dr. Pierce ten cents for trial package.

**WAS BUSY EXPLAINING**

**Thinks Newspaper Offices Have a Super Abundance of A's.**

If Charles D. Nicholas didn't have a real simon-pure genial disposition, known all over Nodaway county, he might have a good case of "peeve" on. The other day it was reported that Nicholas had lost a fine horse which plunged off a bridge while being worked to a road drag, and was drowned. The owner of the horse and also the good roads worker happened to be Charles Nichols, but C. D. had to take all the jollying from his friends who accused him of being a poor driver and swears he had to neglect his farm work to explain that "a" didn't belong in the name.

# KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young — to do this you must watch your liver and bowels — there's no need of having a sallow complexion — dark rings under your eyes — pimples — a bilious look in your face — dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that exuberance of spirit, that natural buoyancy which should be enjoyed by everyone, by toning up the liver and clearing the system of impurities.

You will know Dr. Edwards' Olive Tablets by their olive color. 10c and 25c per box. All druggists.

NEW TREATMENT THAT KNOCKS RHEUMATISM

75c BOX FREE TO ANY SUFFERER

Up in Syracuse, N. Y., a treatment for rheumatism has been found that hundreds of users say is a wonder, reporting cases that seem little short of miraculous. Just a few treatments even in the very worst cases seem to accomplish wonders even after other remedies have failed entirely. It seems to neutralize the uric acid and lime salt deposits in the blood, driving all the poisonous clogging waste from the system. Soreness, pain, stiffness, swelling just seem to melt away and vanish.

The treatment first introduced by Mr. Delano is so good that its owner wants everybody that suffers from rheumatism or who has a friend so afflicted, to get a free 75c package from him to prove just what it will do in every case before a penny is spent. Mr. Delano says: "To prove that the Delano treatment will positively overcome rheumatism, no matter how severe, stubborn or long standing the case, and even after all other treatments have failed, I will, if you have never previously used the treatment, send you a full size 75c package free if you will just cut out this notice and send it with your name and address with 10c to help pay postage and distribution expense to me personally."

# MOLINE

UNIVERSAL TRACTOR

It Solves The Farm Help Problem

The amount of work turned out by one man and this wonderful little farm giant will surprise any farmer who is using horses for draft purposes and those who have tractorized their farms would no more go back to horse drawn implements than they would undertake to travel over the country roads without an automobile.

This is a very ordinary statement which most any of our users of Moline Universal Tractors make when asked what they think about using tractors for farming, what these owners are doing may be done by YOU.

Mr. Frank N. Miller says:—"I would not attempt to farm without my Moline Universal Tractor, every kind of work where I use horses is now done with my tractor and the amount I turn out is much more than ever before when horses were used on my farm. I consider the acreage of wheat it enabled me to plant last fall over our former horse drawn implements will pay for my Moline Universal Tractor."
Maryville, Mo. 3-25-1919, FRANK N. MILLER.

We should have your consideration NOW in order to serve you best and our personal service goes with each tractor sold without cost to our purchasers, even though very small, it means satisfaction.

Our De Luxe Power Washing machines in both the electric and gas engine types please the most particular, there is a reason.

Cushman Engines and Letz Feed Grinders saves one third of your feed bill and should be considered to practice economy at this time.
